As in the recent years with our last seminar 'EthCon', this new IP is aiming to enable students and teachers to work together in multinational groups and so benefit from special learning and teaching conditions.

The IP will be dealing with traditional fibre processing like the production of linen, as a pre-product for various uses such as textiles, paintings, paper etc. Be part of it!

The IP is funded by ERASMUS life Long Learning Program

Please address questions and your letter of motivation to the following teachers:

HAWK: Gerdi Maierbacher-Legl or Michael von der Goltz

UvA: René Lugtigheid or Bas van Velzen

MKE: Petronella Kovacs

Metropolia: Heikki Häyhä
